Checklist

Calendar

Jan. 1 2018 - Title 5 Inspection

Jan. 15 2018 - Make Necessary Repairs

etc.

Users can change the dates for certain events, and delete certain events. Also users can check off events. Events that have been checked off will appear crossed out.

When a user clicks on a list item, a dropdown list should appear below the list item. If the list item has any accompanying documents, a button will appear permitting the user to upload the document (if it hasn't been uploaded yet), or to download the document (if it has already been uploaded). Also, if the item requires the user to hire a professional (e.g. take photos), the dropdown list will contain an option for the user to "Collect bids" from professionals on our site, or to view the profiles of professionals on our site.
